and W. S. Primrose. A morning session was held in the THOSE FRIVOLOUS PROSECU-TIONS.

Some Indications That People Are Outrageously Prosecuted -- For the Purpose of Being Made to Pay "Costs."

Some time ago the Chronicle made reference to the fact that there were evidences that frivoleus prosecutions were occasionally made in magistrates' courts for no better purpose than that of collecting "costs."

Complaints were made to that effect, whether they were true or not.

And now comes another which, if true, shows that some outrageous things are being done in this line. This report comes only from one side, but it is from a colored woman of exceptionally goed character, and is entitled to credence. She made the complaint to the CHRONICLE yesterday morning.

She had been washing for her daughter-in-law and had done work to the amount of three dollars. Then she asked her daughter for the pay or a part of it. She probably made the request several tim s, but she asserts that she always did it gently. The daughter in-law became very angry and went before a magistrate in this city, where she took out a warrant, charging her mother-in-law with using violent language toward her. This was affirmed by the daughter and denied by the

According to the complamant's statement the magistrate told her she had no right to ask her daughter to pay her the money on the street and was told that if she ever did so again she would be sent to the jail or work-house. Furthermore she was charged three dollars as the amount of "costs" of this trial and told to pay it or go to jail.

If such are the facts there are indeed outrageous proceedings in some of the

magistrates' courts. The colored woman who made the complaint is well known in the city She is the mother of the colored man who fell dead in Mr. S. C. Pool's stables some time ago, and she took it upon herself to see that he was decently burned, bearing nearly or quite all of the expense. She stated that she had recently paid out seven dollars for her daughter-in law and son to keep them out of trouble.

The Chronicle of course knows the rames of all the parties and the magistrate connected with this case. This paper hopes to see the matter either made clear, or it wants to see that "costs" money restored to that old woman. If one or the other is not done soon there will be further reference in much plainer terms to the affair.

I had a dream, said a very prominent lady of the city to her friends during a social gathering, on Thursday night last; and since that time I have not ceased to think of its significance, I dreamed that Raleigh had suddenly grown to the size and appearance of Washington City and that all the national public buildings were here, and that the great national museum was situated where the new Union depot is Moore square were covered with two eight story granite buildings for stores, and that these two stores were conected by and arch of solid steel and glass and these two stores an arch were but one store where all kinds of dress goods. ciething, and millinery goods of the entire world's preductions might be seen, and that all nations of the earth came to purchase their goods at this store. And I dreamed that this store was nothing but the natural growth of Swindell's Racket Store. Now I had been to Swindell's on the day before the dream, the day they got the big stock, and I never in all my life saw such a mass of dress goods, and millinery goods too numerous to mention.
